Panoramic

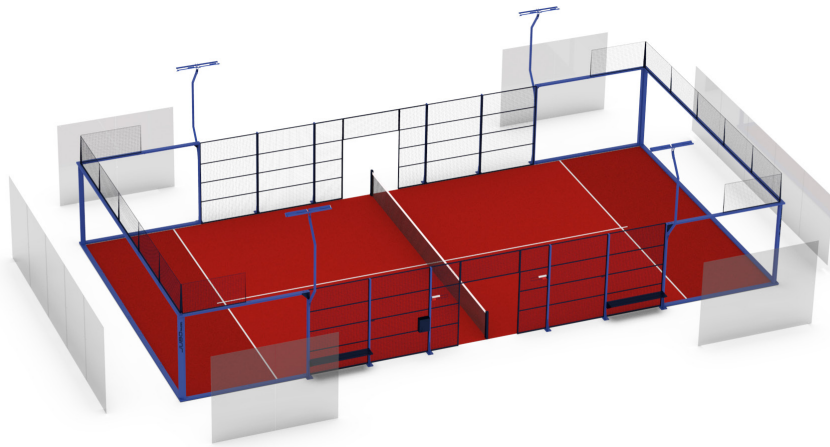

UNE
Normalización
Española

PANORAMIC court offers a unique experience through a differential design that redefines the limits and invites to a game without barriers.

Impressive court specially designed for professional players, maintaining robustness, but emphasising an unbeatable aesthetic finish and broadening the viewer's vision.

An unequalled vision of the game with maximum safety and quality for professional padel.

- **Tempered Glass**
- **Electro-welded wire mesh flush with the glass (no edges).**
- **Panoramic view with no inner metallic posts.**
- **Continuous electro-welded mesh between frames for injury protection.**
- **Two large open entrances in the centre of the court to facilitate quick and safe access and exit**
- **Complete structure in hot galvanised steel.**

Super Panoramic

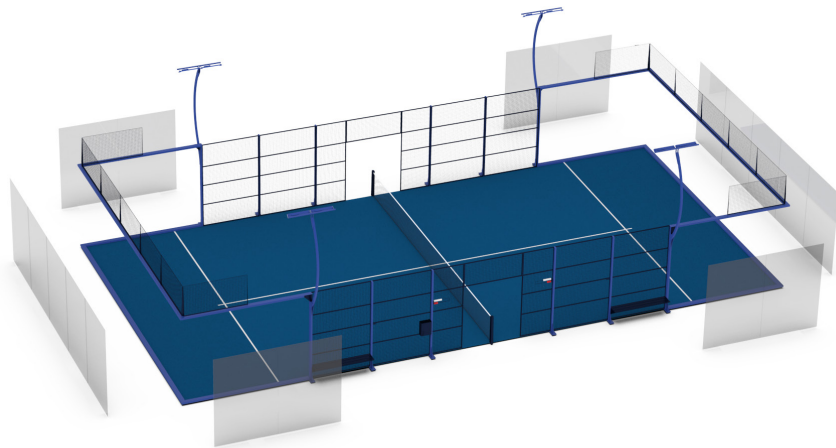

UNE
Normalización
Española

The SUPER PANORAMIC court has been designed to achieve the minimum visual impact, with no pillars in the corners, to offer maximum performance to both players and spectators. Enjoy an incredible playing experience. Feel the robustness, safety and quality. An elegant, superior and professional court only for the best.

It's superior structural strength with a distinctive minimalist design, which pushes the limits of what is technically feasible today. The Super Panoramic court exceeds all expectations. Want to play like a pro? This is the place.

- **Tempered Glass**
- **Metallic anchors bolts homologated by the EU**
- **Eight pillars 100x50x2mm thick of 3m high, with anchor plates measuring 26x19x1cm thick which are reinforced with 40cm tall buttresses.**
- **Certified Paint - Qualisteelcoat® C4H and C5VH (ISO 12944).**
- **Two large open entrances in the centre of the court to facilitate quick and safe access and exit**
- **The metallic structure of the padel court is carbon steel S235 and hot galvanised Z275.**

Infinity Tournament

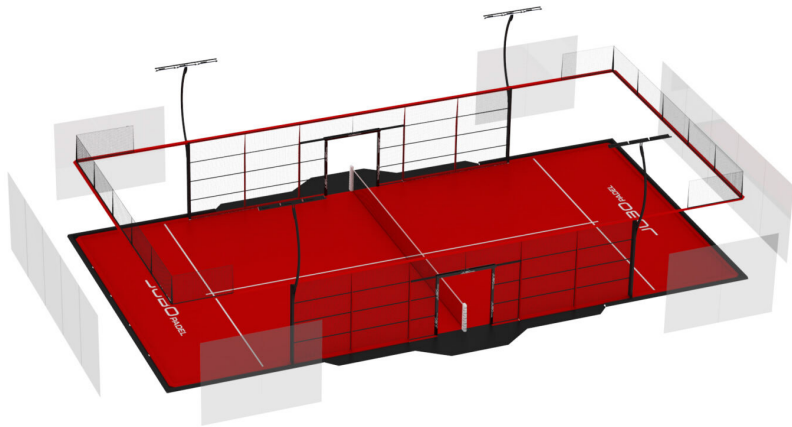

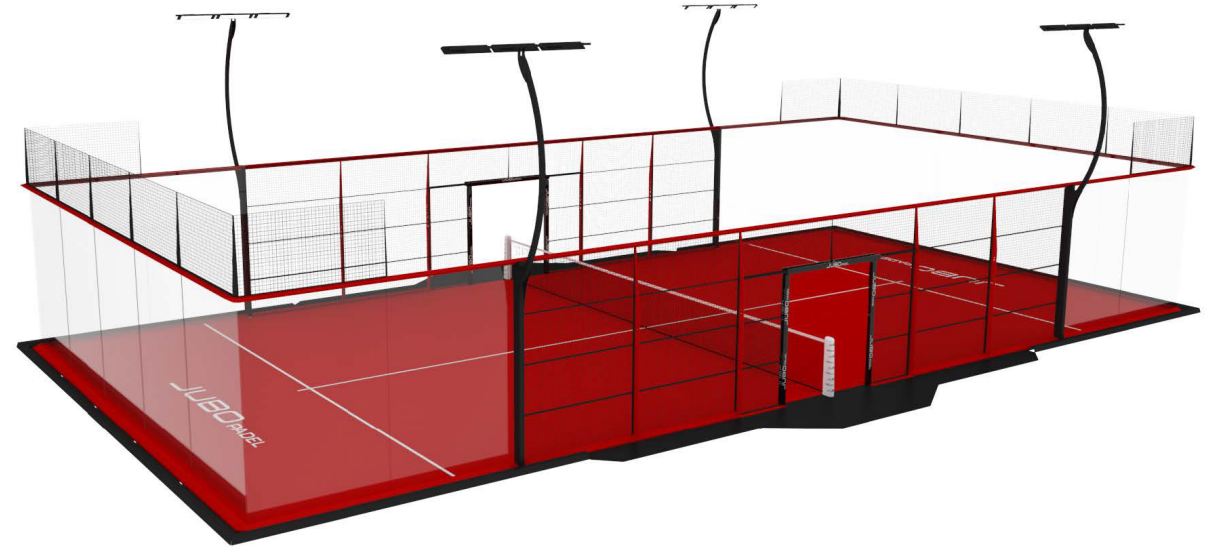

UNE
Normalización
Española

Infinity Tournament is the ultimate expression of our experience, innovation, and technical precision. Engineered to meet the highest standards of professional padel, this court reinforces our leadership in the manufacturing and installation of world-class tournament courts, no matter the location.

Infinity Tournament court complies with the regulations of the International Padel Federation and with the most restrictive requirements established by the Eurocodes.

- **Tempered Glass**
- **Patented structural system**
- **Patented anchor plates system**
- **S355 carbon steel**
- **Four 160x80x3mm pillars and 8mm thick buttress-plates (customizable) are the central support of the structure.**
- **Certified Paint - Qualisteelcoat® C4H and C5VH (ISO 12944).**
- **Two large open entrances in the centre of the court to facilitate quick and safe access and exit**

Infinity Xtreme

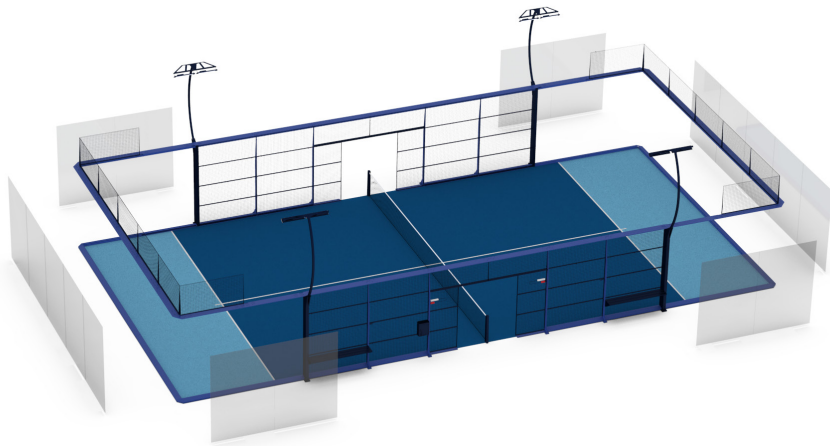

UNE
Normalización
Española

Our Infinity Xtrem court is the first fully panoramic dynamic court structure (no corner pillars) capable of withstanding hurricanes and wind gusts of up to 160mph/260kmh, as certified by American and European engineers with our engineer and development team.

Thus achieving high performance playability while maintaining resilience and safety in the harshest weather.

- **Tempered Glass**
- **Patented structural system**
- **Patented anchor plates system**
- **S355 carbon steel**
- **Four 160x80x3mm pillars and 8mm thick buttress-plates (customizable) are the central support of the structure.**
- **Certified Paint - Qualisteelcoat® C4H and C5VH (ISO 12944).**
- **Two large open entrances in the centre of the court to facilitate quick and safe access and exit**

Customisation

You can personalize your court with structure, colour, turf and more options. If you need something specific out of the options don't worry, we can do it too.

MONDO NSF SHOT XN

Recommended for:
Indoor Type Turf

Yarn Properties		Carpet Properties	
Yarn name:	SHOT XN	Pile height (ISO 2549):	10 mm (± 5%)
Linear density of yarn:	9.000 dtex (± 10%)	Stitch rate (ISO 1763):	17 tufts/dm
Yarn Composition:	100% POLYETHYLENE	Tuft density (ISO 1763):	35.700 tufts/m ² (± 10%)
Yarn color:	Green, blue, Red	Tuft density:	571.200/m ²
Filaments Type:	XNOVA TEXT M	Tufting pattern:	Linear tufting
Linear density of filaments:	1.125 dtex (± 10%)	Gauge:	3/16"
Thickness of filaments (FIFA method 25):	170 µm (± 10%)	Primary backing construction:	doublet ayer of polypropylene
Structure of filaments:	curly monofilament	Secondary backing composition:	Polyurethane (PU)
Number of filaments:	8	Water Permeability (EN 12616):	500 mm/h (solo campi outdoor)
		Maximum roll size:	25 x 4 m
Carpet weight		Infill properties	
Pile weight (ISO 8543):	1.178 g/m ² (± 10%)	Stabilizing Infill:	Quartz sand, rounded, washed and dried
Primary backing weight:	223 g/m ² (± 10%)	Particle size (range):	0,2 - 0,6 mm
Secondary backing weight:	600 g/m ² (±10%)	Quantity:	10 kg/m ²
Total weight (ISO 8543):	2.001 g/m ² (±10%)		

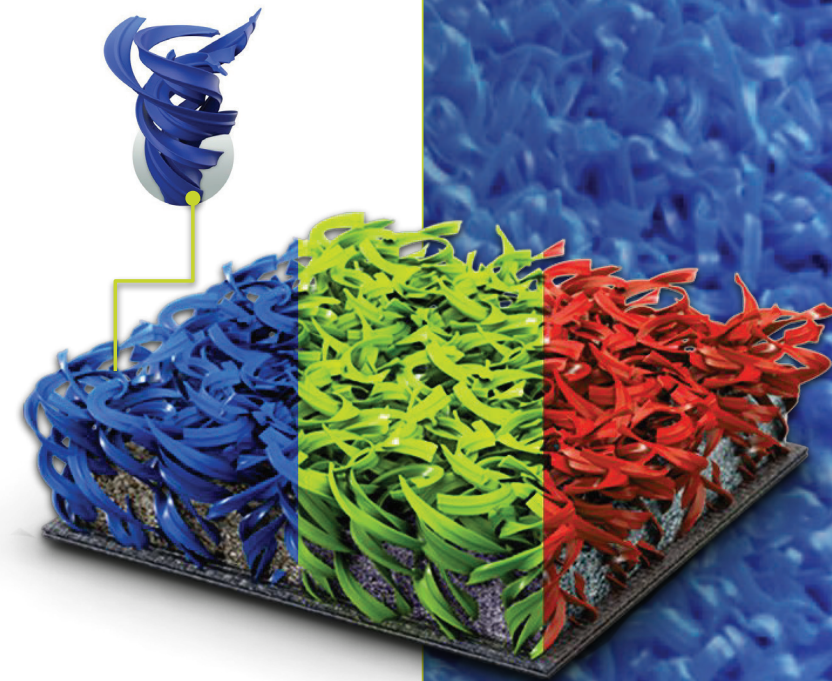

MONDO SUPERCOURT XN

Recommended for:
Indoor Type Turf

Yarn Properties		Carpet Properties	
Yarn name:	Supercourt XN	Pile height (ISO 2549):	10 mm (± 5%)
Linear density of yarn (average):	8.610 dtex (± 10%)	Stitch rate (ISO 1763):	22 tufts/dm
Yarn Composition:	100% POLYETHYLENE	Tuft density (ISO 1763):	46.200 tufts/m ² (± 10%)
Yarn color:	Green, blue, Red	Tuft density:	554.400/m ²
Filaments Type:	STX TEXT / XNOVA TEXT	Tufting pattern:	Linear tufting
Linear density of filaments:	1.720 / 1.150 dtex (± 10%)	Gauge:	3/16"
Thickness of filaments (FIFA method 25):	250 / 170 µm (± 10%)	Primary backing construction:	double layer of polypropylene
Structure of filaments:	curly monofilament / curly monofilament	Secondary backing composition:	Polyurethane (PU)
Number of filaments:	3 / 3	Water Permeability (EN 12616):	500 mm/h (outdoor courts only)
		Maximum roll size:	25 x 4 m

Carpet weight		Infill properties	
Pile weight (ISO 8543):	1.393 g/m ² (± 10%)	Stabilizing Infill:	Quartz sand, rounded, washed and dried
Primary backing weight:	223 g/m ² (± 10%)	Particle size (range):	0,2 - 0,6 mm
Secondary backing weight:	600 g/m ² (±10%)	Quantity:	10 kg/m ²
Total weight (ISO 8543):	2.216 g/m ² (±10%)		

Padel Indoors

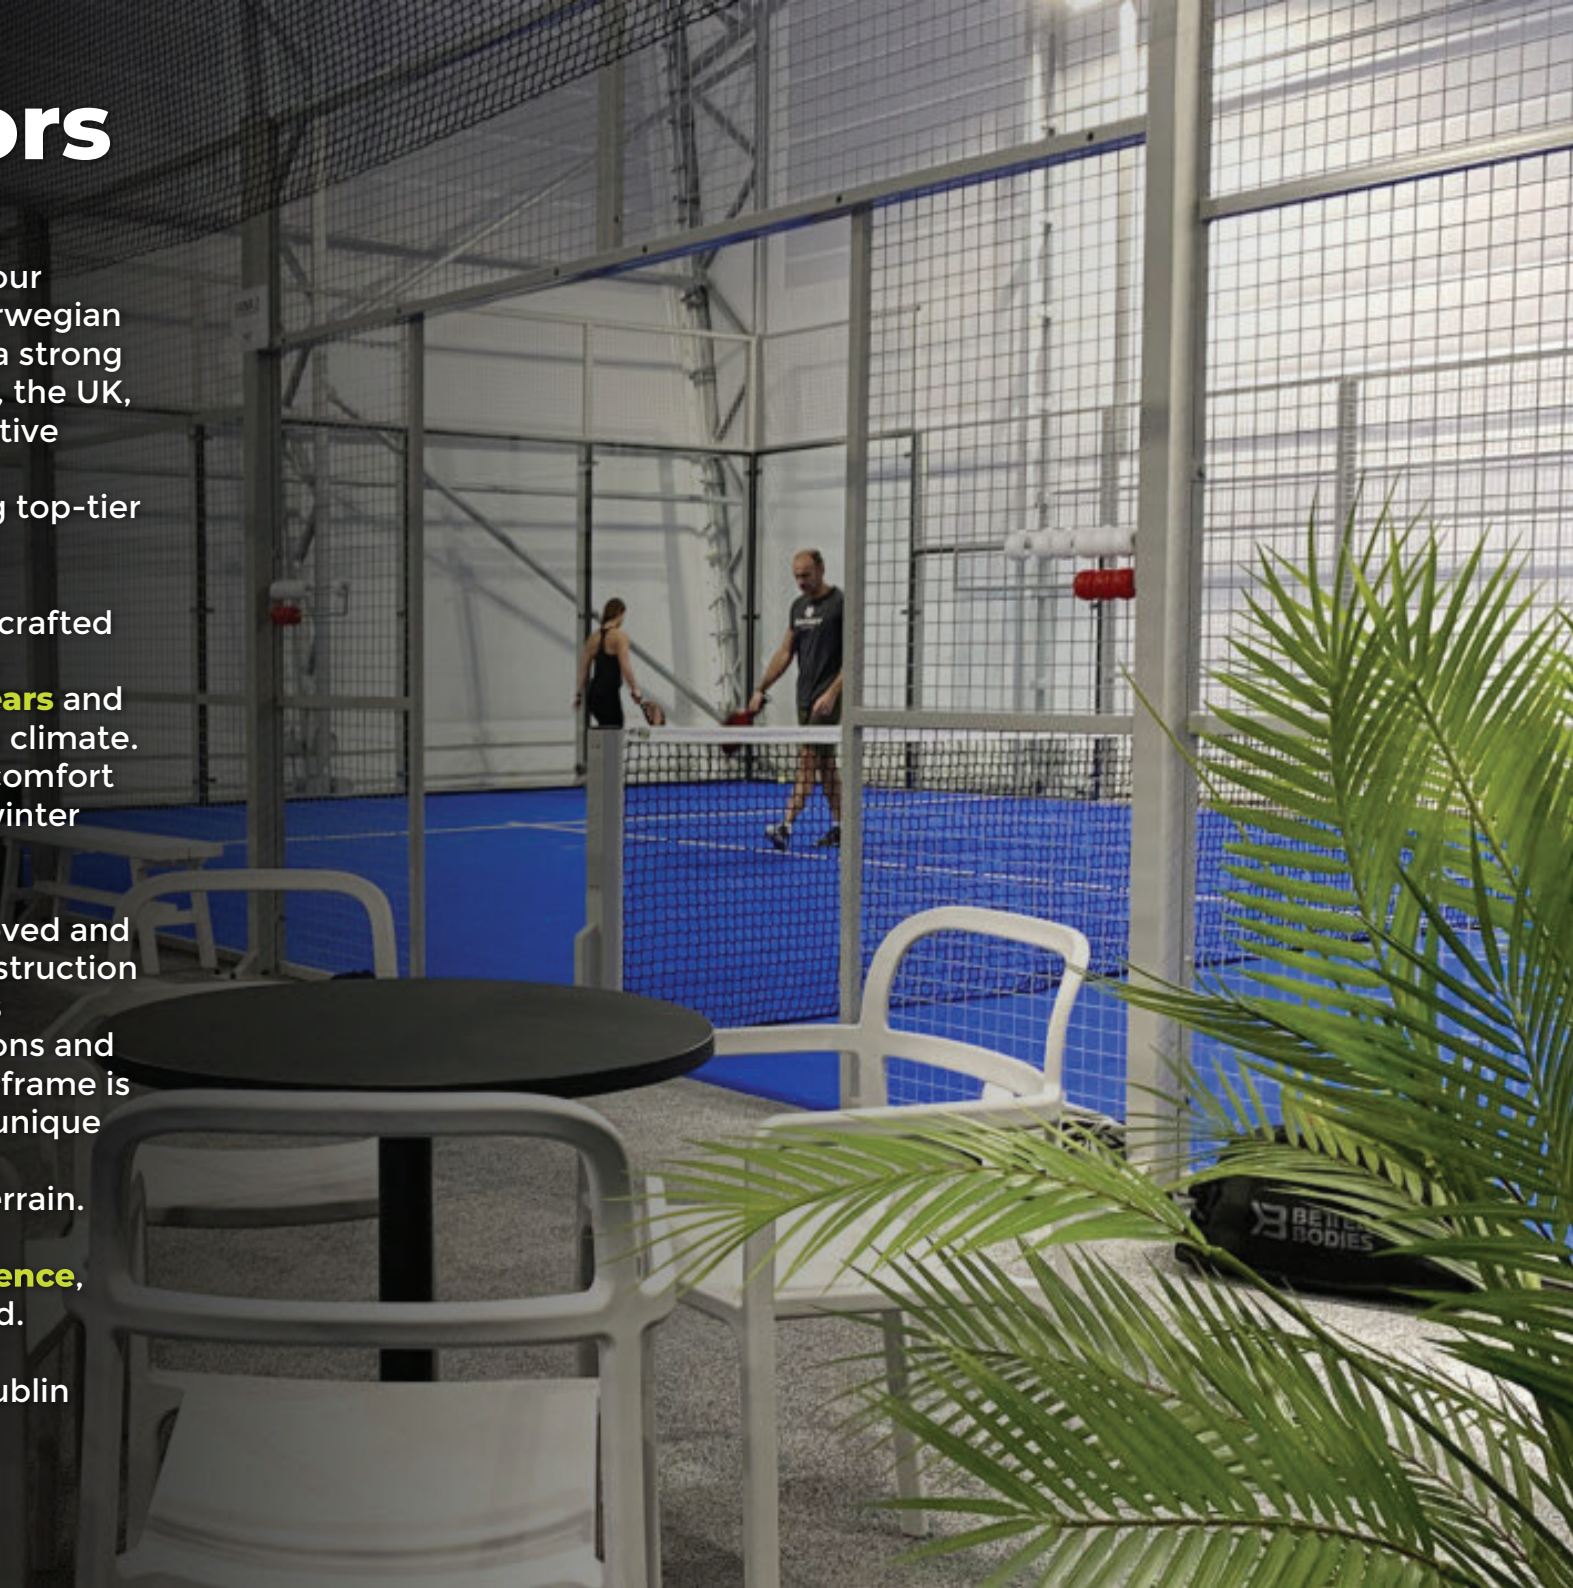

Dolan PCI is pleased to announce our partnership with the renowned Norwegian company **Hallgruppen**, which has a strong presence across Germany, Sweden, the UK, and Ireland. Known for their innovative solutions, Hallgruppen's in-house engineering team excels in creating top-tier Padel covers.

Their Padel sporting structures are crafted with a self-supporting steel design, promising durability for up to **50 years** and the resilience to withstand the Irish climate. These insulated structures ensure comfort year-round, keeping you warm in winter and cool in summer.

Hallgruppen's designs are CE approved and meet all required load-bearing construction standards. Each structure's fabric is custom-fitted to the hall's dimensions and any access passageways. The steel frame is expertly engineered to handle the unique geographical challenges of Ireland, including snow, wind, and varied terrain.

The ultimate indoor Padel experience, built to last and designed for Ireland.

Our first build will be south west Dublin
November 2024

DOLAN PADEL PLUS +

A close-up photograph of a person's hand holding a yellow-green tennis ball on a blue padel racket. The background is a blurred outdoor padel court with blue and green surfaces.

Marketing Support for Your Club

Our key differentiator: Dolan PCI goes beyond supplying courts; we are committed to supporting you in marketing and establishing a successful padel club. Our services include:

- **Dedicated Marketing Support:** We agree a number of weeks of marketing support to attract members and build footfall to your club.
- **Free Coaching:** Benefit from complimentary coaching sessions to introduce your staff to padel.
- **Official Opening Day:** Dolan PCI can liaise with the PFI (Irish Padel Federation) in arranging an official Opening Day, exhibition matches with Ireland best players. We can connect you with our database of coaches seeking full-time and part-time positions in Ireland.

Groundworks

Dolan PCI provide groundworks via our close partner DM Morris leaders in asphalt contractors and civil engineering. Each padel court site must be evaluated on an individual basis with consideration for logistics (site location, movement of materials on and off site, ground conditions, presence of existing services etc).

Merchandise & Accessories

Our Padel Plus + can set you up with wholesale suppliers for padel merchandise including rackets, balls, and coming soon Vending Machines where players can hire rackets and purchase balls.

PADMAL VX2

Once your courts are completed, you should carry out weekly maintenance on the surface partly to maintain a good playing experience for users and to optimize the lifespan of the courts
